COGNITA

THRIVE IN A RAPIDLY EVOLVING WORLD

1. General Statement

1.1 The definition of First Aid is as follows:

- In cases where a person will need help from a medical practitioner or nurse, treatment for the purpose of preserving life and minimising the consequences of injury and illness until help is obtained; and,
- Treatment of minor injuries which would otherwise receive no treatment, or which do not need treatment by a medical practitioner or nurse.

1.2 This policy provides an overview of the statutory requirements and how these are met in school. All safeguarding and child protection policy guidelines must be adhered to both on and off the school site, when first aid is administered.

1.3 The policy applies to all students including those covered by the Statutory Frameworks for the Early Years Foundation Stage (EYFS) 2025.

1.4 The responsibility for drawing up and implementing the First aid policy is delegated to the Head, including informing staff and parents. However, implementation remains the responsibility of all staff in our school in order to keep children healthy, safeguarded and protected whenever they are in our care.

2. Current Procedure

2.1 Our appointed person (First aid co-ordinator) undertakes and records an annual review. A first aid needs assessment (see Page 10) is carried out at least annually to ensure that adequate provision is available given the size of our school, the staff numbers, our specific location and the needs of individuals.

2.2 Our first aid needs assessment includes consideration of students and staff with specific conditions and major illnesses, such as life-threatening allergy, asthma, diabetes and epilepsy, takes account of an analysis of the history of accidents in our school, as well as the identification of specific hazards. It also includes consideration of mental health and careful planning for any trips and visits, including residential and higher risk trips which always include a suitably trained first aider and a member of staff trained in the administration of medicine, in keeping with our Educational Visits policy.

2.3 Our procedure outlines when to call for help when necessary, such as an ambulance or emergency medical advice from professionals, and outlines the requirements for documenting necessary treatment once applied. The main duties of a First Aider are to give immediate help to casualties with common injuries or illnesses and those arising from specific hazards at school.

2.4 We ensure that first aid provision is available at all times, including out of school trips, during PE, boarding and at all other times when the school facilities are used.

2.5 We keep an electronic record of all accidents or injuries and first aid treatment on Medical Tracker (Accident reporting software tool) or a written record where Medical Tracker is not available. We must inform parent(s)/carer(s) of any accident or injury on the same day, or as soon as reasonably practicable, of any first aid treatment. Records are stored confidentially in Medical Tracker. The recording of an accident is carried out in confidence at all times by the person administering first aid.

2.6 School/site procedure(s).

MEDICAL EMERGENCY PROTOCOL

FIRST PERSON ON THE SCENE

- SCENE Survey - Environment is safe for you to approach victim
- ASSESS FOR CONSCIOUSNESS AND BREATHING (UP TO 10 seconds)
- CALL/SHOUT FOR HELP - NURSE *** 2026 ***, RECEPTION *** 2012 ***

Unconscious and not breathing normally	Unconscious and breathing normally	Conscious and breathing
Immediately BEGIN CPR Ratio 30:2 or compressions only 100-120 per minute Call 999 (If alone with casualty get help first then CPR)	Place in recovery position Re-assess regularly Call nurse Nurse will assess and determine next steps	Ask casualty what has happened; assess for injuries Call nurse Nurse will assess and determine next steps

Delegate someone to:

1. Call 999		Give specific location: campus Location, floor and room
2. Get AED from reception		Next to reception desk

		In the cupboard
3. Call nurse		Kasia Mosquera First aid room *** 2026 *** Or reception *** 2012 ***
4. Inform Reception (if ambulance on the way)		*** 2012 ***
5. Receptionist to stay at desk to take calls and give directions		*** 2012 ***
6. If emergency service called – document and inform parents		record and report vital signs, log length of emergency, medication given provide medical information to the ambulance crew

3. First Aid Training

3.1 We carefully consider, and review annually, the training needs of our staff to ensure that suitable staff are trained and experienced to carry out first aid duties in our school. In particular, we consider the following skills and experiences:

- Reliability, communication and disposition,
- Aptitude and ability to absorb new knowledge and learn new skills,
- Ability to cope with stressful and physically demanding emergency procedures,
- Normal duties are such that they may be left to go immediately and rapidly to an emergency
- • The need to maintain normal operations with minimum disruption to teaching and learning.

3.2 First aiders in our school have all undertaken appropriate training. They have a qualification in either:

- First Aid at work (FAW, 3 days or 18 hours) or
- Emergency First Aid at work (EFAW, 1 day or 4-6 hours) or
- Paediatric First Aid (PFA, 2 day face to face or blended) or
- Emergency Paediatric First Aid (EPFA, 1 day or 4-6 hours).

EYFS paediatric first aiders hold a clearly recognised certificate or a renewal (minimum of 12 hours tuition). Before the certificates expire, first aiders need to undertake a requalification course as appropriate, to obtain another three-year certificate.

In relation to the FAW/EFAW/EPFA training courses, providers will follow the current guidelines issued by Resuscitation Council (UK) 2025.

3.3 Training will be updated every three years and will not be allowed to expire before retraining has been achieved.

3.4 The need for ongoing refresher training for any staff will be carefully reviewed each year to ensure staff basic skills are up-to-date, although we are aware that this is not mandatory. Annual three hour basic skills updates in between formal training are recommended to keep staff up to date. Online annual refresher training is available on My Cognita.

4. Key Personnel

First aid co-ordinator (appointed person) - responsible for looking after first aid equipment and facilities, as well as calling the emergency services as required	Kasia Mosquera
Responsible for maintaining First Aid Training Matrix/Log	Compliance Manager
The following staff have completed a recognised training course in FAW	Richard Branch Amy Coad Aniela Dunford
The following staff have completed a recognised training course in EFAW	Brandon Dewey Dana Vivian Deon McNee Edgar Vargem Ellie Blane Hamish Cooper Harry Forster Helen Greenham Jessica Bullen Justine Morley Leila Parsons Lenka Gryzova Marilyne Guillaumont Marina Silveira Matthew Lockwood Michael Evangelista Nikki Godfrey-Brown

	Sara Page-Towers Shannon Rodgers Simon Columb Simon White Sonia Gomez Vukola Milankovic
The following staff have completed a recognised training course in EPFA	
The following staff have completed a 2 day Paediatric course in first aid (EYFS requirement)	Aimee Brady Camile Purcell Gifty Agyepong Kim White Lenka Gryzova Naomi Sexton Penny Lee Tiago Gomes Holly Mealy Nikki Godfrey-Brown Anna Delehanty Jessica Daniel Julia Sahling

5. Contents of our First Aid Box

5.1 Our minimum provision, as recommended by HSE is to hold a suitably stocked first aid box, to nominate an appointed person (see 3.1 above), as well as the provision for staff of relevant information on first aid arrangements.

5.2 In our suitably stocked First Aid box we provide the following, or suitable alternatives:-

- a leaflet giving general guidance on First Aid e.g. HSE leaflet 'Basic advice on First Aid at work' (INDG347).
- Disposable gloves x3 pairs
- Cleansing wipes x10
- Normal saline for irrigation x3
- Antibacterial wipes x small packet
- Tissues x small packet
- 20 individually wrapped sterile adhesive dressings (assorted sizes);
- Sterile eye pads x2
- Finger bandage x2
- two - four individually wrapped triangular bandages (preferably sterile);
- safety pins x6
- Small (approximately 4cm x 4cm) individually wrapped sterile unmedicated wound dressings x2

- Medium (approximately 12cm x 12cm) individually wrapped sterile unmedicated wound dressings x2
- Large (approximately 18cm x 18cm) sterile individually wrapped unmedicated wound dressings x2
- Scissors x1 pair
- Microporous tape x1
- Ice pack x1
- Sick bag x1

5.3 The First Aid coordinator is responsible for examining the contents of the first aid boxes. These are checked at least termly and restocked as soon as possible after use. Details of these checks are recorded. Extra stock is held within the school and items discarded safely after the expiry date has passed. We do not keep tablets, creams or medicines in the first aid box.

5.4 Our first aid boxes are kept in the following places:

- science prep room,
- science lab,
- reception,
- medical room
- staff room
- Reception classroom
- Year 1 classroom
- Year 2 classroom
- Kitchen,
- 1st Floor teacher's hub
- 2nd Floor staff room

5.5 We take great care to prevent the spread of infection in school, particularly in the event of spillages of bodily fluids which we manage effectively by washing off skin with soap and running water, out of eyes with tap water and/or an eye wash bottle, wash splashes out of nose with tap water, record details of any contamination, and seek medical advice where appropriate. For further information please see our Prevention and Control of Communicable and Infectious Diseases Procedures.

5.6 First aiders take careful precautions to avoid the risk of infection by covering cuts and grazes with a waterproof dressing, wearing suitable powder free vinyl or nitrile gloves, using suitable eye protection and aprons where splashing may occur, use devices such as face shields when giving mouth to mouth resuscitation and wash hands before and after every

procedure. They also ensure that any waste products are disposed of in a yellow clinical waste bag or box in line with procedures in 5.5.

5.7 We ensure that any third party lettings or providers, including transport, have adequate first aid provision which complies with our standards. For example, visiting sports clubs or schools.

5.8 We ensure that any third party contractors, including catering and cleaning, working with us are aware of our policy and procedures.

6. Early Years

6.1 The Statutory Framework for the Early Years Foundation Stage (2025) is mandatory. In accordance with this, we ensure that at least one person with a current Full Paediatric First Aid certificate is on our premises at all times, when students are present. All new nursery and pre-school staff within our Early Years will undertake paediatric first aid training. This means that newly qualified staff with a childcare level two and three qualification will have a paediatric first aid certificate before they can be included in the statutory staff:child ratios in the early year's settings. All paediatric first aid certificates will be displayed in the Early Years areas.

6.2 No outing from school is undertaken without the presence of at least one person with a paediatric first aid qualification, present on and off site.

6.3 We keep an electronic record of all accidents or injuries and first aid treatment on Medical Tracker or a written record where Medical Tracker is not available. We must inform parent(s) and/or carer(s) of any accident or injury on the same day, or as soon as reasonably practicable, as well as any first aid treatment. Records are stored confidentially in Medical Tracker. The recording of an accident is carried out in confidence at all times by the person administering first aid.

6.4 We must notify Camden Council of any serious accident or injury to, or the death of, any child in our care. We always act on their advice, if given to us.

Camden Duty and Assessment Team (North) 0207 974 6600

Camden Duty and Assessment Team (South) 0207 974 4094

And in urgent situations, during out of office hours, we contact them via:

Camden Duty and Assessment Team 0207974 4444

6.5 Prescription medicines must not be administered unless they have been prescribed by a doctor, dentist, nurse or pharmacist and we have a clear procedure for managing this. Please refer to the schools Medicines Policy.

7. Recording Accidents and First Aid Treatment

- 7.1 Students will inform their teacher or nearest staff member, or fellow students, when they are not feeling well or have been injured. They will let a member of staff know if another student has been hurt or is feeling unwell.
- 7.2 All accidents are recorded immediately after the accident, including the presence of any witnesses and details of any injury or damage. Records are stored confidentially in Medical Tracker. The recording of an accident is carried out in confidence at all times by the person administering first aid. An accident investigation may be required so that lessons are learnt and actions taken to prevent reoccurrence. A Serious Incident Reporting Form may require completion for any serious accident, incident or occurrence – following completion of an accident investigation.
- 7.3 Any first aid treatment is recorded by the person who administered first aid. We will record the date, time and the environment in which the accident or injury occurred. Details of the injury and what first aid was administered, along with what happened afterwards is always recorded.
- 7.4 The First Aid Co-ordinator is responsible for the maintenance of accurate and appropriate accident records, including the evaluation of accidents, and regular reporting to the H&S committee for monitoring purposes.
- 7.5 We adopt the definition of Ofsted UK with regard to serious injuries (2022) as follows:-
- Anything that requires resuscitation
 - Admittance to hospital for more than 24hours
 - A broken bone or fracture
 - Dislocation of any major joint, such as the shoulder, knee, hip or elbow
 - Any loss of consciousness
 - Severe breathing difficulties, including asphyxia
 - Anything leading to hypothermia or heat-induced illness
 - Any loss of sight, whether temporary or permanent; any penetrating injury to an eye and a chemical or hot metal burn to the eye
 - Injury due to absorption of any substance by inhalation, ingestion or through the skin
 - Injury due to an electrical shock or electrical burn
 - Injury where there is reason to believe it resulted from exposure to a harmful substance, a biological agent, a toxin or an infected material
- 7.6 We adopt the definition from Ofsted UK for minor injuries (2022), of which we always keep a record, as follows:

- Animal and insect bites, such as a bee sting that does not cause an allergic reaction
- Sprains, strains and bruising, for example if a child sprains their wrist tripping over their shoe laces
- Cuts and grazes
- Minor burns and scalds
- Dislocation of minor joints, such as a finger or toe
- Wound infections

7.7 For the reporting of serious and dangerous accidents and incidents in school, we inform Helen Ferguson, Melissa Jones and James Carroll. These include work-related and reportable injuries to visitors as well as certain accidents, diseases and dangerous occurrences arising out of or in connection with work.

8. Recording Incidents and Near Misses

8.1 We record on Medical Tracker any near misses which are occurrences where no-one has actually been harmed and no first aid was administered, but have the potential to cause injury or ill health. We record any incidents that occur on the premises and these may include a break in, burglary, theft of personal or school's property; intruder having unauthorised access to the premises, fire, flood, gas leak, electrical issues.

9. Hospital Treatment

9.1 If a student has an accident or becomes ill and requires immediate hospital treatment, the school is responsible for either:

- calling an ambulance in order for the student to receive treatment; or
- taking the student to an Accident and Emergency department
- and in either event immediately notifying the student's parent/carer

9.2 When an ambulance has been called, a first aider will stay with the student until the parent arrives, or accompany student to hospital by ambulance if required.

9.3 Where it is decided that student should be taken to an A&E Department a first aider must either accompany them or remain with them until the parent/carer arrives.

9.4 Where a student has to be taken to hospital by a member of staff they should be taken in a taxi or school vehicle and not use their own car.

10. Defibrillators

- 10.1 The school has 1 Defibrillator and it is located in the cupboard at the reception area.
- 10.2 The defibrillator is always accessible and staff are aware of the location and those staff who have been trained to use it. They are designed to be used by someone without specific training and by following the accompanying step by step instructions on it at the time of use. The manufacturer's instructions are available to staff and use promoted should the need arise.
- 10.3 The First Aid Coordinator is responsible for checking the AED termly, recording these checks and replacing any out of date items.

11. Monitoring and Evaluation

- 11.1 Our school's senior leadership team monitors the quality of our first aid provision, including training for staff, and accident reporting on a termly basis. Our policy will be reviewed annually or with significant change. Compliance will be reported formally to the school's termly H&S Committee. Minutes of these meetings are submitted in a timely fashion to the Head of Health & Safety – Europe. The Head of Health & Safety will report to the Cognita Europe H&S Assurance Board.
- 11.2 Reports may be provided to our Safeguarding committee which includes an overview of first aid treatment to children including the identification of any recurring patterns or risks and lessons learned with the management actions to be taken accordingly including the provision of adequate training for staff..

Schools Assessment of First Aid Needs (UK)
